### **Statement of Reasons**

It is proposed to do this because over time discrepancies have come to light between what restrictions are physically marked on the ground, and what is detailed within the current traffic regulation order. This order aims to resolve these discrepancies by matching the traffic regulation order to what is currently in place on the ground at this location.

Specifically, the restrictions are proposed to avoid danger to persons or other traffic using the road or any other road or for preventing the likelihood of any such danger arising, will facilitate the passage on the road of any class of traffic (including pedestrians) and will preserve or improve the amenities of the area which the road runs through.
