Statement of Reasons

As part of a new infrastructure enhancement scheme to make significant improvements to the bus stop arrangements and road network in the vicinity of Barnstaple Railway Station, we are proposing to make changes to the existing Traffic Regulation Orders. These changes are linked to the scheme and should improve integration between buses and trains and improve the passenger experience at Barnstaple Railway Station.

The proposed scheme includes changes to the existing Bus Stops, Bus Gate, Taxi ranks, No Waiting restrictions, new Parallel Crossing and Loading Bay

The restrictions are proposed to avoid danger to persons or other traffic using the road or for preventing the likelihood of any such danger arising, for facilitating the passage on the road or any other road of any class of traffic (including pedestrians) and for preserving or improving the amenities of the area through which the road runs.
